

# REBYOTA™ Account Set Up & Ordering Information

## What you need to know to set up your account and order **REBYOTA**

### How to order **REBYOTA**

There are multiple ways to order REBYOTA. The ordering process has been streamlined to integrate efficiently into your operational workflow. REBYOTA is available through a network of specialty distributors (SDs) and specialty pharmacies (SPs).

A current list of distributor names and phone numbers can be found on page 2. However, distributors may change over time. Please refer to our website at [www.REBYOTAHCP.com](http://www.REBYOTAHCP.com) for the most current list of SDs and SPs.

Revised April 2023

Please click here for full [Prescribing Information](#).

## 1 SPECIALTY DISTRIBUTOR ACCOUNT SET UP

This step is only needed if you don't have an in-network Specialty Distributor account currently set up:

Prior to ordering REBYOTA™ for your patients, you will need to ensure you have an SD account within our network. We have provided a couple steps to get you started.

### Identify which Specialty Distributor you would like to use within the network

The SD network account set up information chart below contains the specific contact information you will need to begin the process with your preferred SD.

- Each SD has its own application process, turnaround time, and list of documentation that is needed to submit an order
- Address verification may be required

#### SPECIALTY DISTRIBUTORS

##### CuraScript

Tel: 1-800-862-6208 • Email: [customerservice@curascript.com](mailto:customerservice@curascript.com)

## REBYOTA™ PRODUCT INFORMATION

### NDC#

55566-9800-2

### How supplied

REBYOTA and the administration set are shipped together in a box. Each box may contain up to 6 cartons of REBYOTA and up to 6 administration sets. Each carton of REBYOTA (NDC 55566-9800-2) contains a single dose.

### Storage and handling

REBYOTA contains live microorganisms. It is important to follow the storage requirements.

Upon Receipt:  
Store the REBYOTA carton in an ultracold freezer (-60°C to -90°C, -76°F to -130°F). Alternatively, store in a refrigerator (2°C to 8°C, 36°F to 46°F) for up to 5 days (including thaw time). Do not refreeze REBYOTA after thawing.  
Store the administration set at 10°C to 34°C (50°F to 93°F).  
DO NOT store the administration set in the freezer.

Before Using:  
Prior to use, thaw REBYOTA completely by placing carton in a refrigerator (2°C to 8°C, 36°F to 46°F) for approximately 24 hours. Do not refreeze REBYOTA after thawing.  
Dispose of all components in medical waste.

### Carton size

Product Box: 9 7/16" x 5 6/16" x 1"  
Tube kit box: 9 7/16" x 5 6/16" x 1"  
Combined: 18 14/16" x 5 12/16" x 2"

### Carton weight

Product: 0.264 kg each  
Administration Set: 0.09 kg each

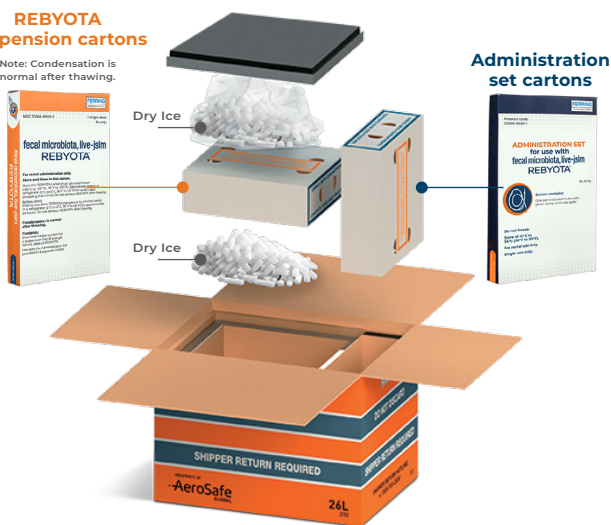

## Specialty Distributor shipping, returns, and replacement policies

REBYOTA™ contains live microorganisms; it is important to follow proper storage requirements:

- REBYOTA can stay in the unopened orange shipper box up to 5 days from date on box
- Follow unpacking instructions printed on the orange shipper box for storage and thawing requirements
- AEROSAFE will facilitate box returns with a phone call 1-2 days after receipt
  - Tel: 1-585-328-2140

### REBYOTA suspension cartons

Note: Condensation is normal after thawing.

### Returns/Replacement goods policy:

- If a patient misses the appointment and the thawed REBYOTA cannot be used, Ferring will offer zero-cost replacement for the product purchased through a REBYOTA SD or purchased directly through Ferring
- For complete return/replacement policies and procedures, please contact your site of product procurement

## REBYOTA™ may be dispensed via Specialty Pharmacies

Please work with your SP on logistics, handling, and their specific returns and replacement policies.
